Introduction

Welcome to the guide to starting a foundation for Bitcoin Black. I would like to break this down and hopefully this will give you ideas, inspire you to work together to bring our project to reality.

We sincerely believe you can achieve anything you want provided you have the will and determination to fulfill your dream.

As John Quincy Adams said, "If your actions inspire others to dream more, learn more, do more, and become more, you are a leader."

I hope this guide will inspire you to learn, inspire, do and dream! This guide features ideas and steps you can take to turn your thoughts and ideas into reality and help our project reach the heights that will change many many lives.

The vision of Bitcoin Black is to give the power back to the people and create the greatest shift of wealth in human history. In the whitepaper it states that one of the keys to success (1.2 Keys To Success) is Foundations Set Up and Managed Correctly.

Our goal with this guide is to assist you in being creative, help you understand what a foundation is and help you set up and manage it correctly so our project will be successful.

What Is A Foundation?

Lets first start with the definition of a foundation

- ✔ The basis or groundwork of anything
- ✔ The act of founding, setting up, establishing, etc.
- ✔ The state of being founded

Lets change this question now to “What is a Bitcoin Black Foundation?”

A Bitcoin Black Foundation is simply the act of founding, setting up, establishing anything that will push Bitcoin Black into the future and better the project as a whole

Why Create A Foundation

Creating a foundation has many advantages for the person creating the foundation in addition to advantages for what the foundation represents. Looking back on to what a foundation is, a foundation will push Bitcoin Black into the future which will benefit the foundation in many ways. Keep in mind every foundation will have a different purpose and end result from the intention of the founder.

Creating a foundation and managing it correctly are Keys to Success of the project as outlined in the whitepaper

Foundation Distribution

Distribution is the most important part of the currency. Included in the distribution model for Bitcoin Black includes distribution for the Foundations.

The IEO will sell 20% of all the Bitcoin Black Coins to raise money for the IEO. These 7.2 Billion Coins sold in the IEO will be allocated to community foundations who will help the community move the project further into the future minus the Manipulation Counteraction Fund of approximately 5%

These funds will go directly to multiple community foundations decided upon by the community. These funds will be allocated after the IEO.

Requirements In A Foundation

- ✔ Website
- ✔ Url
- ✔ Video
- ✔ Anything which will become part of the Bitcoin Black Ecosystem and move the project forward
- ✔ Keep in mind you can also create a plan and get it accepted prior to execution of the foundation provided the community accepts it. Example: A community member sets out a plan to create and exchange which users can easily interchange their local fiat currencies and BCB. The idea can be funded through the IEO.

Foundation Examples and Ideas

- ✔ A P2P exchange which interchanges BCB with local currency
- ✔ A development team working on technical innovations assisting BCB
- ✔ A charity working hands on with local communities
- ✔ A print and marketing team distributing materials to global Bitcoin Black education hubs
- ✔ A gaming company to create Bitcoin Black related android and IOS games which use Bitcoin Black as the games currency.
- ✔ An online store specializing in Bitcoin Black items such as t-shirts, car stickers, cups and more which will be dropped shipped worldwide at the lowest costs.
- ✔ A company in a jurisdiction where it is possible to get a banking license to enable card issuing which will create and issue Bitcoin Black Card.
- ✔ A marketing department
- ✔ A educational hub to educate new users on cryptocurrency
- ✔ Online marketplace based around Bitcoin Black
- ✔ A printing company to dropship marketing materials at the lowest prices possible, car stickers, an introduction to Bitcoin Black pamphlet, your custom QR stickers to apply to marketing material to gain app introduction rewards and more.
- ✔ A dragons den helping to fund projects which help the future of BCB

Example of a Live Foundation

[Shiftthewealth.com](https://www.shiftthewealth.com) is a perfect example of a foundation that has many qualities that help push Bitcoin Black into the future in addition to:

- ✔ It creates jobs for youth
- ✔ It helps increase the membership for BCB
- ✔ It creates “Hot Spots” and strategic hubs so BCB will expand in the future

- ✔ It educates the people about BCB
- ✔ It educates people on how to buy BCB and hold it in the future
- ✔ It helps to create Merchant Adoption
- ✔ It has a plan to further expand BCB into the future.

If you like what we have done with Shift The Wealth Foundation help our team fund future projects by purchasing some of the BCB we have available to fund these projects. You can get packets of 25,000 at <https://bitcoinblack.site>

How To Submit A Foundation

- ✔ Once you have created a foundation or have a plan of action simply submit the Foundation to hello@bitcoin.black. In the Subject line simply put "Foundation Submission"
- ✔ If you would like to have your foundation looked over before it is submitted by the leaders of BCB for suggestions then send the information to admin@bitcoinblack.blog. The content will be submitted to the leaders of Bitcoin Black for review and a response will be sent back to you for your review.

How To Submit Foundation Ideas

- ✔ If you have a plan for a foundation send it to hello@bitcoin.black
- ✔ If you have an idea for a foundation send it to admin@bitcoinblack.blog
We can work together to find someone with qualifications to help you turn your idea into a reality.

How To Team Up With Other Members

As stated above, if you have an idea for a foundation you can reach out to the community. The best way would be to let the leaders know you wish to move an idea forward and you are seeking someone to partner up with to see it into reality. You can email admin@bitcoinblack.blog and put in the subject line “looking for partner for foundation” and we will submit the request to the leaders to assist in finding someone to help move your project forward.

Advertising Your Foundation

There are many ways to advertise your foundation. It will depend on the type of foundation created and you will need to determine if the advertising will be for marketing to BCB Members or the general public.

Example: The Shift The Wealth Foundation has a marketing aspect that markets to the general public with websites. It educates the general public how to join BCB and then how to buy in the future to hold BCB to help increase the price so we can Shift The Wealth to many individuals that so need the shift. Then it has a marketing aspect that markets to BCB members to help increase their affiliate count by hiring students that so desperately need a job. So you will need to determine your audience to market to.

There are many sources to advertise your foundation including but not limited to:

Facebook

Telegram

Instagram

Pinterest

Email

Flyers

Conclusion

Bitcoin Black will be the greatest shift of wealth in human history. It is important that we develop the foundations to move our project further into the future and give the power back to the people. One of the keys to success is to create and manage these foundations.

The Bitcoin Black project is community based. That means we have no large corporation or the manipulation that goes on everyday in front of our eyes. This project is run by the people for the people and the vision is to give this power back to the people and create this great wealth shift.

This world-changing vision is a part of what Bitcoin Black is about. Many cryptocurrencies deal with investors making money quickly and over time but with Bitcoin Black it's more than money-making investors, it's about changing the world and supporting less fortunate people that need a break really.

It would be awesome for us to get the creativity to create foundations that help charity, create jobs, help to push Bitcoin Black into the future to create that shift of wealth. It is community driven so we need your help, your ideas, your assistance in any way that you can contribute.

It is up to us, the community to push the project forward. I hope you can see the vision of what we can do to change the world. Take a moment today and write down ideas for a foundation and send them in, take part in a project and turn our community vision into a reality and change so many lives.

“See you on the beaches of the world”
